Checklist of Components

The purpose of this checklist is to help you keep up with what you have and haven't downloaded. Too often, I've signed up for programs and lost track of what I have (and haven't) yet accessed. This will help you stay organized as you go through and check things off.

NOTE: Wherever you are downloading your recordings and your materials, please make sure you are backing it up. You only have to have your entire hard drive (or your cloud-based storage system) crash or die once to know that the “belt and suspenders” approach is a good one.

Bonuses to download (and save!) or access:

- Notebook cover page, copyright page
- Table of Contents
- Checklist of Components
- Coupon code for next real-time Mind Sweep *E*vent
